

Carefree Maintainer

Step 3 of your professional floor care system

Superior floor maintenance

- Advanced formulation
- Renovates polished floors
- Complete protection

Advanced formulation

Carefree Maintainer is the first choice for any hard floor maintenance. With its advanced formulation of surfactants and wetting agents, Carefree Maintainer preserves gloss finishes for longer than ever before. Suitable for mopping, spray cleaning and scrubbing on any protected or unprotected floor.

Renovates polished floors

Carefree Maintainer will repair worn or damaged polish films bringing back the natural beauty of the floor. Its unique make-up penetrates damaged areas whilst simultaneously removing ground in soilage and grime. Once down on the floor the polymer component of this formulation reacts excellently buffing to bring out a crystal shine.

Complete protection

Carefree Maintainer is an effective and economic maintainer for all floor finishes. By providing a protective wear layer over the floor or polish it reduces permanent damage caused by daily traffic. With a pleasant floral fragrance, Carefree Maintainer is a market leader in professional hard floor maintenance.

Carefree Maintainer

Usage instructions

Each 5 litres polishes up to 500m².

Step one: Prepare the floor

Prepare the floor by stripping with Carefree Speed Stripper or Carefree Stripper.

Step two: Protect the floor

Protect the floor using Carefree Eternum high gloss floor polish.

Step three: Maintain the floor

Spray clean: Add 50 ml of Carefree Maintainer to 500 ml of water in a suitable spray bottle (1:10 dilution). Apply a fine mist over approximately 2 m² at any one time. Buff with a suitable buffing pad until clean and dry.

Damp mopping: Add up to 30ml of Carefree Maintainer per litre of water (1:30-1:60 dilution) in a bucket. Apply the solution to the floor with a wrung out mop.

Machine scrubbing: Add 30 ml per litre of water (1:30 dilution). Apply the solution to the floor then scrub with a suitable grade pad or scrubbing grade brush. Pick up residue with a mop or wet suction machine.

Technical data

Appearance	Opaque pink liquid	S.G.	1.00
pH value (neat)	6.5-7.5	Viscosity	Water thin
pH diluted	6.5-7.5		

The above data is typical of normal production and should not be taken as a specification.

Product	Pack size	Cases per layer	Cases per pallet	Article code
Carefree Maintainer	2 x 5 L	20	60	J030390

Safe handling and storage information

Keep from freezing. Do not use at temperatures below 10°C.
